Executive Part-Time Master Sustainable Real Estate and Building

Energy and Digital Transitions

Formerly Real Estate, Building & Energy

Mastère spécialisé Immobilier Bâtiment Énergie

Jean Carassus, FRICS, professor & Céline Boua, architect
Director et academic head

2016

Summary

- 1/ Objectives, uniqueness, target
- 2/ Active industry partnerships
- 3/ Ten training objectives
- 4/ A study trip abroad
- 5/ A professional thesis
- 6/ The 2016-2017 class

1/ Objectives, uniqueness, target

- Objective: to train management executives and future management executives in sustainable real estate and building
- Uniqueness: to combine real estate skills (finance and law) with those related to building (architecture and engineering) under the aegis of sustainability
- Target: executives in the private and public sectors + open to several trainee executives with high potential (the part-time course enables working people to participate)

1/ Objectives, uniqueness, target

- A degree awarded by the Ecole Nationale des Ponts et Chaussées, established in 1747, founding member of:
 - the Paris Institute of Technology which is made up of 10 engineering and business Grandes Ecoles (Polytechnique, Mines, Telecom, HEC...),
 - the Paris School of Economics,
 - the Paris Est University
- A mastère spécialisé[®] programme with 75 ECTS (European Credit Transfer System) accredited by
- Fee: 16 000 €

2/ Active industry partnerships

5 companies, 2 Ministries and one research centre who enrol or finance from 1 to 4 executives per year

- A housing company (subsidiary of AXA)
- A promoter, property, facility and asset manager (subsidiary of Crédit Agricole Bank)
- An energy service company (subsidiary of EDF)

2/ Active industry partnerships

- A global materials manufacturer
- Ministry of Environment, Energy and the Sea
- Ministry of Housing and Sustainable Habitat
- The Scientific and Technical Centre for Building

CSTB
le futur en construction

**SAINT-GOBAIN**

3/ 10 training objectives

- Ten training objectives
- 385 hours of teaching
- Eleven weeks spread out over one year
- Including a study trip abroad
- Correspond to 45 ECTS

3/ 10 training objectives

- **January (Week 1) Energy transition, third industrial revolution, real estate and building** *Coordinators Jean Carassus FRICS (Ecole des Ponts) Jean-Christophe Visier (CSTB)*
 - Objective: convince a decision-maker to put in place a sustainable real estate and building policy
- **February (Week 2) Sustainable towns and neighbourhoods** *Coordinator Bernard Lensel (Grand Lyon)*
 - Objective: present, for a real estate development (new and renovation), the factors relating to the urban context: neighbourhood and town
- **March (Week 3) User behaviour** *Coordinateur Pascal Plotegher FRICS (Poste Immo)*
 - Objective: take into account the users in the design, construction and use of a building (new build and refurbishment)

3/ 10 training objectives

- April (Week 4) **Strategy and management of a real estate portfolio** *Coordinators Gilles Chamignon (Mercatena Gestion), Frank Hovorka MRICS (Caisse des Dépôts)*
 - Objective: construct, finance and follow an environmental progress plan on the scale of a real estate portfolio
